Summary

Product Engineer with 4+ years building web products, connecting technical implementation with user needs and business goals. Develops funnels, personalized journeys and checkout, combining engineering judgment with product context. Experience spans testing, performance, CMS automation and targeted server-side changes. Uses AI-assisted workflows with human review and validation.

Experience

Full-Stack Engineer, Promova

Feb 2025 to Aug 2026

- Developed marketing funnels, personalized components, conditional flows, and AI Tutor frontend features with product, design, backend, and ML colleagues.
- Implemented updates to Profile Summary and Scratch Promocode. Team-reported relative A/B results: +15% ARPU for Profile Summary; +40% ARPU, +60% paywall-to-purchase conversion, and -40% cancellation rate for Scratch Promocode.
- Improved Solidgate checkout and Apple Pay web behavior, optimized asset/data loading, and fixed device-data handling. Added unit tests and Grafana monitoring.
- Built Strapi/GrowthBook experimentation tools, CMS preview, and funnel visualization. Simplified the workflow from 6 steps to 1 click; team-reported testing cadence grew from 7-10 to 30-35 tests/month. Automated localized sales-page duplication: 8 hours to 5 minutes (PM estimate).
- Improved Amplitude and Meta Pixel/CAPI delivery through frontend and targeted existing Go/Fiber changes. Team-reported Purchase Event Match Quality rose from 7.7 to 8.3/10. Wrote a Strapi cleanup migration and verified recovery with DevOps.
- Developed frontend-to-CMS MCP workflows and quiz-design, creative-generation, and ad-research tools. Used Claude Code and BMAD Method for AI-assisted development.

Frontend Engineer, Memcrab

Sep 2022 to Feb 2025

- Built drag-and-drop page composition and public rendering so managers could assemble blog and product pages independently.
- Developed e-commerce catalog, search, cart, delivery, and admin features; integrated backend APIs and blog CRUD with media and SEO fields.
- Reduced client JavaScript through bundle analysis and library removal; migrated Webpack to Rspack for faster builds and development updates.
- Created and maintained Zod schemas for checkout, cart, and localized blogs, linking runtime validation with TypeScript types and error handling.
- Maintained React SSR, localization, and typed Redux/reselect selectors; added targeted Jest date-validation tests. Collaborated with backend, design, and QA.

Frontend Developer, HolyWater

Jan 2022 to Jun 2022

- Developed React/TypeScript features, integrated REST/GraphQL APIs, and used Redux Toolkit and Effector for state management.
- Applied Feature-Sliced Design and collaborated with product and design teams in an agile environment.

Webmaster / Content Manager, Lumi-Dent

May 2018 to Jul 2021

- Updated content and HTML/CSS; configured SEO and optimized website pages for search engines.

Skills

- React · Next.js
- TypeScript · JavaScript
- HTML · CSS
- React Query
- Redux · Redux Toolkit · reselect
- Zod
- Internationalization (i18n) · Lingui
- REST · GraphQL
- Jest · Vitest
- Motion (React animations)
- Server-side rendering (SSR)
- Strapi · CMS tooling
- GrowthBook · A/B testing
- Node.js
- Webpack · Rspack
- Git
- ESLint · Oxlint
- Amplitude · GTM · Meta Pixel/CAPI
- SQL · BigQuery
- MongoDB
- AI-assisted development
- Claude Code · Codex · MCP

Training & Courses

Agentic Engineering Workflows
SULICOM AI Academy · Practice: tried Spec-Driven Development (SDD) and used OpenAI Codex, Oct 2026

Front-end Architecture
Genesis Tech · Lecture series, Apr 2026

Foundational courses
Anthropic, Dec 2025

React+ fwdays'25 Conference
Fwdays, Oct 2025

JavaScript fwdays'25 Conference
Fwdays, May 2025

Testing JavaScript and React applications
Udemy, Apr 2024

Ultimate Next.js 13 Course
JavaScript Mastery, Nov 2023

Redux for state management
Udemy, Jul 2022

Junior Frontend Developer
Result School, May 2022

HTML & CSS & JS
HTML Academy, Jan 2018

Education

NTUU "Igor Sikorsky Kyiv Polytechnic Institute", 2010 to 2016
Master's degree; Mechanical Engineering

Languages

Ukrainian - Native, English - B1 · Intermediate
